

PIXEL GURU

PERFECT PHOTOS EVERY TIME,
ANYWHERE, ANYTIME!

An innovative app for fast, easy and economical professional quality inventory photos.

With just a few clicks, you can upload **professional quality** photos to display your Certified Pre-Owned inventory.

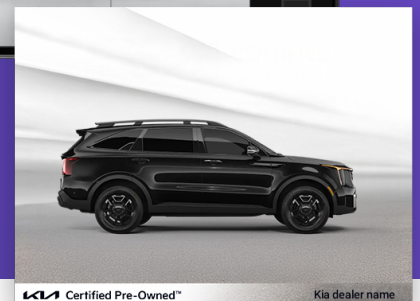

Specially developed for car dealerships, the artificial intelligence included in the Pixel Guru application automatically enhances photos taken to meet Kia Canada's CPO image requirements.

The application allows you to take high-quality photos of your CPO inventory from several angles and enhance the images by changing the background to the Kia pre-approved CPO background along with the Kia CPO logo and your dealership name allowing you to meet the Kia Canada CPO inventory merchandising requirements. Your online showroom takes on another dimension!

AN EASY TO USE APP

You don't need to be a professional photographer to capture high-quality images. Our app guides you every step of the way while taking photos. Framing, image sequences, angles, everything you need is included in the process!

It's easy for everyone; even new staff can simply follow the guide, without additional training.

360 AGENCY

UPLOAD YOUR PHOTOS IN 1 HOUR OR LESS

Our AI processes your vehicle photos and automatically publishes them on advertising platforms in less than an hour. It's 48 times faster than using a photographer! Your inventory is always up to date.

NO LOGISTICS TO PLAN

You no longer have any photographer logistics to deal with, take your photos whenever you want.

KEYWORD INSERTIONS FOR ORGANIC REFERENCING (SEO)

The right keywords are automatically inserted into the image source files to improve SEO and increase visibility on search engines.

SAVE MONEY

Pixel Guru costs 5 to 10 times less than a professional photographer!

Certified Pre-Owned Package
